Cultural Services Department

When New Vision meets New Media EXhibition

新視野新媒體藝術展

媒體魅力，體現新視野本色

AN INNOVATIVE SHOWCASE OF IDEAS
AND VISUAL ENTERPRISE

新媒體藝術是科技與藝術概念的混合體，它存活於城市中，透過科技全方位滲透於大眾生活之中。當網絡世界發展至將大部分地球人都連結在一起，我們更應該了解科技、人民、文化三者之間的關係。

展覽將展出由藝術節委約創作，以融合藝術節主題為基礎的互動新媒體作品，並展示多位本地及國際知名藝術家糅合科技與藝術概念，以及具有跨文化、跨界別元素的新媒體傑作，期望透過展覽與大眾互動，誘發思考，帶來視覺全新體驗。

New media art, which draws together technology and the arts, often seeks to penetrate urban life. This exhibition explores the intriguing relationships between technology, society and culture in the age of the internet, where people around the world are connected with each other.

The exhibition will showcase a commissioned new media work based on the festival's theme of New Vision and other cutting-edge pieces by international artists, offering an interactive dialogue between creators and participants. The result is a thought-provoking, cross-cultural, multi-media experience.
